

Software Developer

Online analytical software systems for education

What are you looking for from an employer?

- Supportive environment
- Happy team, who are passionate about the job they are doing
- Chance to develop
- Opportunity to innovate and contribute
- Flexible family values

If so, don't miss this opportunity. FusionHR and SAM are looking for a Software Developer to join our expanding team. As we now work with over 250 schools and Trusts, and support over 250 SAM users, it is a great time to be joining us with many new exciting projects on the horizon. The role will develop and support our main software system SAM, an online absence management system for schools. SAM is bespoke to education and is becoming the leading system of choice for schools with an extensive reporting suite, employee portal and trigger management. There are also exciting opportunities to create and develop additional HR software in the near future. If you think you can add extra sparkle to this team, read on.

The role:

- To design and develop the Company's software products.
- To provide support to users and colleagues of the company's software products.
- To assist in the promotion of the company's (software) products
- 37.5 hours, based in Leeds primarily
- Salary 35-40k
- Potential for flexible hours
- Closing Date 13th July 2018

What we are looking for.....

- Ability to use own initiative and prioritise
- Proven track record with excellent problem solving skills
- Ability to work autonomously/ independently
- Attention to detail & ability to plan whole solution strategy
- Team Player
- C#.Net
- ASP.Net MVC
- Entity Framework
- JavaScript/jQuery
- Bootstrap/HTML5/CSS
- MS SQL/T-SQLOOP development methods
- Visual Studio 2010/12/13

About FusionHR

Our team has extensive education sector experience and provide a holistic HR and Legal support service. Our approach is personalised and proactive with a dedication to be innovative, creative and think outside the box. We support schools and businesses with Employment & Contracts, Training, Health & Wellbeing Services, Recruitment & DBS, Health & Safety and Consultancy Services including Investigations, so all needs are taken care of in one place.

About SAM

SAM - Staff Attendance Management Software can be tailored specifically for a school or MAT. It shows who's hit triggers, when tasks are due, centralises all documents and provides reports for leadership teams. It has been proven to reduce admin time and supply costs with schools reducing costs on average by 40%. SAM is a quirky brand and works hard to be the best absence software available for schools. We hold user groups for ongoing development and apply regular feedback from clients to further enhance the system.
